ICED / COLD

01

Iced Cold Brew Lemonade

The ultimate summer trail drink – bright, tart, and endlessly refreshing.

TIME · 5 MIN + STEEP

SERVES • 2

LEVEL · EASY

① YOU'LL NEED

- 1 cup Sasquatch cold brew concentrate
- ½ cup fresh lemon juice (about 3 lemons)
- 3 Tbsp maple or simple syrup
- 2 cups cold water
- Ice + lemon slices

① MAKE IT

- 1 Stir the lemon juice and syrup until fully dissolved.
- 2 Add the cold water and cold brew concentrate; stir.
- 3 Fill two tall glasses with ice and pour.
- 4 Garnish with lemon slices.

TRAIL TIP

Freeze leftover cold brew into ice cubes so your drink never waters down on the trail.

① NOTES & TWEAKS

Best with: *A bright African or Latin single-origin.*

HOT

02

Camp-Style Cowboy Coffee

Bold, simple, and built for the fire – no filter, no machine, no fuss.

TIME · 10 MIN

SERVES • 4

LEVEL · NO GEAR

① YOU'LL NEED

- 4 cups water
- 4 Tbsp coarsely ground Sasquatch coffee
- 1 pinch of salt
- A small splash of cold water

① MAKE IT

- 1 Bring the water to a rolling boil over the fire, then pull it off the heat.
- 2 Stir in the grounds and salt. Let steep 4 minutes.
- 3 Splash a little cold water on top — it sinks the grounds.
- 4 Pour slowly and leave the last inch in the pot.

TRAIL TIP

That cold-water splash is the whole trick: it drops the grounds so you get a clean cup with no filter.

① NOTES & TWEAKS

Best with: *A bold dark roast — Italian or French.*

ICED / COLD

03

Whipped Espresso (Dalgona)

Creamy, cloud-like, and totally worth the arm workout.

TIME · 10 MIN

SERVES • 2

LEVEL · EASY

① YOU'LL NEED

- 2 Tbsp instant espresso
- 2 Tbsp sugar
- 2 Tbsp hot water
- 1½ cups milk of choice
- Ice

① MAKE IT

- 1 Whisk espresso, sugar, and hot water until thick, pale, and cloud-like (~3–4 min by hand, 90 sec with a frother).
- 2 Fill two glasses with ice and milk.
- 3 Spoon the whipped coffee on top.
- 4 Stir well before your first sip.

TRAIL TIP

Equal parts is the golden ratio — 2 : 2 : 2. Cold milk keeps the foam standing tall.

NOTES & TWEAKS

Best with: *A balanced medium roast or espresso blend.*

HOT

04

Spiced Chai-Coffee Fusion

Warm, complex, and wildly satisfying – a 'dirty chai' with a campfire soul.

TIME · 15 MIN

SERVES • 2

LEVEL · MEDIUM

① YOU'LL NEED

- 1 cup brewed Sasquatch coffee
- 1 cup chai concentrate (or strong brewed chai)
- ½ cup milk
- 1 cinnamon stick + 2 cardamom pods
- Honey, to taste

① MAKE IT

- 1 Warm the chai, milk, and spices over low heat for 5 minutes.
- 2 Stir in the brewed coffee.
- 3 Sweeten with honey to taste.
- 4 Strain into mugs and top with a dusting of cinnamon.

TRAIL TIP

The coffee is what makes it 'dirty' — use a medium roast so the spice still shines through.

NOTES & TWEAKS

Best with: *A balanced medium roast.*

ICED / COLD

05

Cold Brew Tonic

Crisp, effervescent, and barista-approved – the sleeper hit of the lineup.

TIME · 5 MIN

SERVES · 1

LEVEL · EASY

① YOU'LL NEED

- ½ cup Sasquatch cold brew concentrate
- ½ cup tonic water
- Ice
- A twist of orange peel

① MAKE IT

- 1 Fill a glass with ice.
- 2 Pour in the tonic water first.
- 3 Slowly float the cold brew over the back of a spoon so it layers.
- 4 Twist an orange peel over the top and drop it in.

TRAIL TIP

Pour the coffee slowly over a spoon for that two-tone, café-window layering.

① NOTES & TWEAKS

Best with: *A bright, fruity single-origin.*

HOT

06

Maple Cinnamon Latte

Cozy cabin vibes in a mug – the one you'll make on repeat all winter.

TIME · 10 MIN

SERVES · 1

LEVEL · EASY

① YOU'LL NEED

- 1 double shot espresso (or ½ cup strong Sasquatch coffee)
- 1 cup milk
- 1 Tbsp real maple syrup
- ¼ tsp cinnamon + a pinch of nutmeg

① MAKE IT

- 1 Warm the milk with maple, cinnamon, and nutmeg; froth until foamy.
- 2 Pull the espresso into your favorite mug.
- 3 Pour in the spiced milk, holding back the foam, then spoon it on top.
- 4 Dust with a little more cinnamon.

TRAIL TIP

Real maple syrup beats flavored syrups every time — it caramelizes right into the crema.

① NOTES & TWEAKS

Best with: *A medium roast or a Cinnamon Hazelnut flavored roast.*

DIALING IT IN

Cold drinks love a **bright, high-grown coffee** — the acidity reads as juicy over ice. Hot, spiced, and milk drinks lean on **medium-to-dark roasts** that hold up against sugar and steam. When in doubt, brew it a touch stronger than usual; ice and milk both mellow a cup fast.

Brew it anywhere.

Print it, save it to your phone, or tuck it in the top of your pack.
Wherever the trail goes, your coffee goes too.
